INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with the requirements of 37 CFR §1.56, applicants submit the documents attached hereto to be made of record in the above-identified case. A listing of said documents on form PTO-1449 is also attached.

The present Information Disclosure Statement is being filed within three months of the filing date; therefore, no filing fee is believed to be required. If a filing fee is required, the Commissioner is hereby authorized to charge applicants' deposit account 01-1350 for the full amount of said fee.

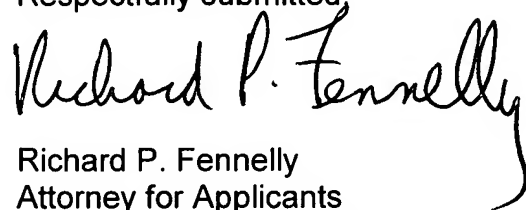

German Patent No. 239 530 relates to the preparation of alumina particles of 2.5 to 4.0 mm by granulating pre-peptised alumina, i.e. only one dry material, in a fluid bed granulator. As the present invention relates to the preparation of smaller particles (20-2000 microns) from at least two dry catalyst ingredients. Please note an English abstract is enclosed.

Japanese Patent Application Number 57045344 is not in the English language, however, a Derwent abstract is enclosed.

This statement is not intended to represent that no better art exists. Applicants reserve the right to contest the applicability of the documents attached hereto as prior art in the event that any information is discovered which demonstrates that said documents do not qualify as prior art.

Consideration of the present Information Disclosure Statement is respectfully requested. The claimed invention is, however, deemed to represent a patentable departure from the teachings of the prior art.

Respectfully submitted,

A handwritten signature in black ink, reading "Richard P. Fennelly". The signature is written in a cursive style with a large, sweeping "F" and a long, trailing "y".
